

## **Lady Bay Primary School**

### **Crib sheet for Remote Education**

We have worked hard to listen to all the feedback from the last lockdown and the feedback given when I sent the remote education plan in July and September to create our home learning offering. We hope that children find the interactive approach more supportive and the structured daily learning will help to keep them engaged.

#### **What you can expect:**

- All work will be uploaded to google drive for you to access every morning.
- The work will be split into daily folders. Each day, teachers will plan for 3 hours of home learning activities as outlined by the DFE. These will include, English, Maths and a wider curriculum session. KS1 children will also be provided with phonics practise.
- Maths work will follow the structure we use in school and follow the White Rose. The resources, PowerPoint and videos will be uploaded to google drive for this.
- English and the wider curriculum subjects will be in the form of a PowerPoint presentation with a video (when necessary) to start explaining the work for the day.
- There will be an introductory message by a member of the year group teaching team either attached to one of the lessons or as a separate file so the children have the opportunity to hear from their teacher.
- It is our expectation that children undertake English and Maths work between 9am and 12.00pm and that all work is uploaded to SeeSaw by 1pm. Wider curriculum can be completed in the afternoon and uploaded.
- Teachers will be checking SeeSaw from 1pm and offering feedback and marking the work uploaded. This will also be used as an assessment tool and if necessary, changes will be made to the next sessions of learning. We will be expecting the children to complete the work at their usual standard of presentation and effort levels.
- Some children may receive additional work or a scaffold if the teacher deems it necessary. This will be sent directly to your child via SeeSaw.
- If your child needs support, please message the teacher on SeeSaw and during their afternoon sessions checking work, they will respond and offer help and support.
- Teachers will all be in school every day. They will spend some of their time working with key worker children and the rest preparing home learning and offering feedback to children.
- Starting next week, a weekly assembly by myself and Mrs Keane, will be uploaded to the video resource centre on the school website. This can be found here...

We would prefer work to be completed on lined paper and you may have a suitable book at home. If you do not have this and you would like an exercise book for your child to complete home learning activities in, please come to the school and collect one. Timings for this are on the newsletter.
