

Lady Bay Primary School

Ways to help your child
make a smooth transition
into school.

Can your child.....?

Can your child...

- Separate from you confidently and happily?
- Put their coat on and off independently and fasten it?
- Hold a pencil or felt tip pen and write their name?
- Use a knife, fork and spoon to eat?
- Use the toilet independently and wash their hands?
- Count and recognise to 10?
- Take turns and share?
- Hold scissors and cut out pictures?

- Independently change for PE and dress themselves again?
- Sing some nursery rhymes and songs?
- Follow simple instructions and focus when an adult is speaking?
- Listen and follow a story?
- Follow simple rules?

Being able to do these things will really help to settle your child into school easily and give your child the confidence to make a good start.
